

HESHAN PRAVINTHA

SENIOR SOFTWARE ENGINEER | MOBILE DEVELOPER

+94772902181 • heshpravintha@gmail.com • linkedin.com/in/hesh-pravintha1

PROFILE

Results-driven Senior Software Engineer with 3+ years of hands-on experience building and leading high-performance mobile applications for millions of users across Flutter and React Native platforms. Proven track record of delivering production-level solutions for leading telecommunications and insurance providers in Sri Lanka, with expertise in clean architecture, CI/CD automation, and cross-platform development. A passionate Flutter community contributor with a published pub.dev package, and a proactive leader who thrives in fast-paced agile environments, mentors junior developers, and consistently drives quality, performance, and innovation.

TECHNICAL SKILLS

- **Mobile Development:** React Native, Flutter
- **State Management:** Redux, Redux-Saga, Provider (Flutter), Riverpod
- **Frontend Technologies:** React.js, JavaScript, HTML, CSS
- **Backend & Database:** Spring Boot, Java, PHP, SQL, Firebase
- **Analytics, Monitoring & Deep Linking:** Firebase Analytics, Crashlytics, Performance Monitoring, Firebase Dynamic Links, AppsFlyer Deep Links
- **Architecture & Design:** RESTful APIs, MVC, Clean Architecture
- **Tools:** Git, Figma, JIRA, VS Code
- **Testing & Quality:** Unit Testing, Widget Testing, Integration Testing, Test-Driven Development
- **Methodologies:** Agile (Scrum), Cross-platform Development

EXPERIENCE

Senior Software Engineer

Jan 2026 – Present

Omobio (Pvt) Ltd, Colombo 04

Project Names: Airtel Selfcare App (Flutter), Hutch Selfcare App (React Native), AIA Insurance App (Flutter)
Clients: Dialog Axiata PLC, Hutchison Telecommunications Lanka (Pvt) Ltd, AIA Insurance Lanka Limited

- Currently acting as Frontend Lead for the Airtel Selfcare Flutter project, overseeing architecture and development.
- Leading implementation of Flutter domain-driven clean architecture with Riverpod for scalable, maintainable code.
- Implemented AppsFlyer deep linking to replace Firebase Dynamic Links, ensuring seamless attribution and deep-link routing across mobile platforms.
- Designing and executing unit tests using Mocktail and integration tests with Patrol to ensure robust application quality.
- Set up CI/CD pipelines integrating SonarQube for code quality analysis and automated unit test checks, ensuring rapid feedback and high standards for every commit.

- Implemented release automation with Fastlane, streamlining build, code signing, and deployment processes for mobile applications.
- Engineered critical performance optimizations resulting in 30% faster application startup times while maintaining exceptional reliability with 98% crash-free session rates.
- Successfully managed multiple production releases with zero critical bugs, demonstrating rigorous quality assurance and deployment excellence.
- Collaborated closely with UI/UX teams during design phases to optimize user experience, contributing to strong user satisfaction with a 4.2-star average rating across 90,000+ user reviews and over 5M+ app downloads.
- Enforced coding standards and best practices project-wide to ensure code quality and maintainability.

Software Engineer (Trainee → Associate → Software Engineer)

May 2023 – Dec 2025

Omobio (Pvt) Ltd, Colombo 04

Project Names: Dialog BizCareLite App (React Native), Dialog Retail Hub App (React Native), Robicash App (Flutter), Hutch Selfcare App (React Native), AIA Insurance App (Flutter)

Clients: Dialog Axiata PLC, Hutchison Telecommunications Lanka (Pvt) Ltd, AIA Insurance Lanka Limited, Robi Axiata Limited (Bangladesh)

- Progressed from Trainee through Associate to Software Engineer, developing features for 5 production-level mobile applications across Flutter and React Native platforms.
- Developed features for major telecommunications and insurance service providers in Sri Lanka and Bangladesh, supporting 1M+ monthly active users combined.
- Utilized Redux-Saga architectural pattern to develop features for applications with more than 1 million monthly active users combined.
- Implemented advanced state management using Redux and Saga for efficient side effects handling.
- Optimized application performance achieving 30% faster startup times and maintaining 95%+ daily crash-free sessions.
- Deployed applications to Google Play Store, Apple App Store, and Huawei AppGallery.
- Implemented Firebase Analytics, Crashlytics, and Performance Monitoring for comprehensive application insights.
- Handled testing and debugging for React Native and Flutter applications; managed version upgrades and Android SDK updates to ensure performance, stability, and platform compatibility.

FREELANCE UI DESIGNER (FIVERR)

2020 – 2023

Fiverr

Project Names: Mobile & Web Application UI/UX Designs

Clients: International Clients (Fiverr)

Portfolio: behance.net/heshanpravintha1

- Designed and delivered modern, user-centric mobile and web application interfaces, focusing on usability, consistency, and visual appeal.
- Created complete end-to-end user flows including authentication, onboarding, content browsing, and ordering experiences.
- Built responsive, conversion-friendly layouts optimized for multiple screen sizes and platforms.
- Applied modern UI principles, design systems, and interaction patterns to improve user engagement and accessibility.
- Collaborated closely with developers to ensure smooth design handoff, feasibility, and high-quality implementation.

EDUCATION

Bachelor of Science (Hons) in Software Engineering

2017 – 2020

NSBM Green University (NSBM) Affiliated with the University of Plymouth in UK

Second Class Honours (Upper Division)

FLUTTER COMMUNITY CONTRIBUTIONS

keyboard_actions_bar — Flutter Package Author

Jun 2026

pub.dev/packages/keyboard_actions_bar

- Designed and published a fully customizable Flutter keyboard toolbar package to pub.dev, supporting Android, iOS, Web, macOS, Linux, and Windows under a verified publisher.
- Features zero FocusNode boilerplate, Material 3 theming, 6 built-in actions (Done / Next / Prev / Clear / InsertAt / Custom), tap-outside dismiss, custom keyboard panels, and smooth slide animation.
- Published under MIT license with full API documentation and example app.

KEY ACHIEVEMENTS

- **Flutter Community Contributions:** Published *keyboard_actions_bar* Flutter package to pub.dev under a verified publisher, available across all major platforms.
- **Team Leadership:** Frontend Lead for the Airtel app, mentoring junior developers and ensuring timely, high-quality feature delivery.
- **Application Performance:** 30% faster startup times with 98%+ crash-free sessions.
- **Production Excellence:** Zero critical bugs across multiple releases.
- **User Impact:** 700,000+ monthly active users, 4.2-star rating and over 5M+ app downloads.
- **Academic Achievement:** Second Class Honours (Upper Division) in Software Engineering.
